

Pharmaceutical Sciences

FACTSHEET

Litigation Support

Pharmaceutical Sciences at Aptuit, Inc. provides a wide range of unique analytical services to the pharmaceutical industry having great utility for litigation support. We offer customized solutions to your problems, utilizing state-of-the-art cGMP/cGLP compliant analytical tools. With an average of over ten years of experience in the pharmaceutical industry, our scientists have successfully helped clients solve numerous difficult and time-critical problems, providing them with the highest quality results – on time, every time!

Patent Litigation Support

- Complete design of experimentation to test/support client's position
- Data critique/review
- Testing following an agreed upon protocol, including cGMP/cGLP requirements, where needed, with real-time client interaction maintained throughout the study
- Rapid turnaround using state-of-the-art instrumentation
- Accurate and reliable documentation supporting test results, including a detailed sample handling and storage audit trail, environmental monitoring, where needed, and a fully audited instrument calibration and maintenance program
- Peer-reviewed reports and briefs, including high-quality photography and copies of primary data in digital and/or hardcopy format
- Clear and concise summaries, conclusions, and recommendations
- Expert witness testimony highly experienced in the characterization and study of :
 - Active Ingredients and Drug Products – both Large and Small
 - Molecules
 - Drug Devices
 - Delivery Systems
 - Consumer Products
 - Packaging Systems

Physical/Chemical Analysis

- Complete design and conduct of laboratory experimentation, utilizing state-of-the-art instrumentation to quickly define and solve problems
- “Fingerprint” Testing of Active Ingredients and Drug Products
- Reverse Engineering
- Materials Identification
- Contaminant Analysis
- Tampering Investigations
- Failure Investigations
- Customer Complaints Solution/Solid State Property Characterization
- Manufacturing Process Support

Conclusions and recommendations by experts to put your problem in perspective and help you understand your choices and alternatives.

Additional Aptuit Capabilities

Aptuit offers a comprehensive suite of drug development services that range from candidate selection through to market, including consultancy services, API development and manufacture, preclinical and clinical technologies, pharmaceutical services, large and small scale manufacturing, IVRS, and clinical packaging and logistics, across a wide range of compounds, dosage forms and delivery systems.
